

## **DLX & DLXB MF/M**

Multifunction Digital solenoid dosing pump

**DLX MF/M** model consists of a series of multifunction dosing pumps with a microprocessor and a liquid crystal display enabling an accurate injection pulses choice

### **GENERAL FEATURES**

- Operating functions:  
➤ ON/OFF proportional operating modes,  
➤ Proportional dosing functions by reed water meter: 1xn; 1xn (m)  
1:n; PPM  
➤ Adjustable 0/4-20mA control
- Flow Sensor input (Alarm)
- Relay Output
- Level probe input
- Daily and weekly timer programming (8 programmes/day)
- Clock and Buzzer
- Anti-acid plastic casing
- IP65 protection degree
- Up to 20 l/h and 20 bar
- Wall (DLX) and Foot mounted (DLXB):  
Standard pump head: PVDF body, PTFE diaphragm, ceramic balls, FPM seats\*
- Manual air bleed pump head; from 5 to 15l/h automatic air bleed available on request
- Power Supply: 220-240V\*\*
- Strokes frequency:  
➤ 120 strokes/min (from 1l/h to 15l/h)  
➤ 150 strokes/m (20 l/h)
- CE and CSA certified

\*different configurations available upon request

\*\*other power supplies available upon request

### **Stroke Length Adjustment**

The **Stroke Length Adjustment** mechanism is available for DLXB foot mounting version only. It allows to regulate the plunger's stroke length from 20 to 100% by moving the knob accordingly. This way is possible to adjust the quantity of product delivered for each injection, performing a more accurate dosing

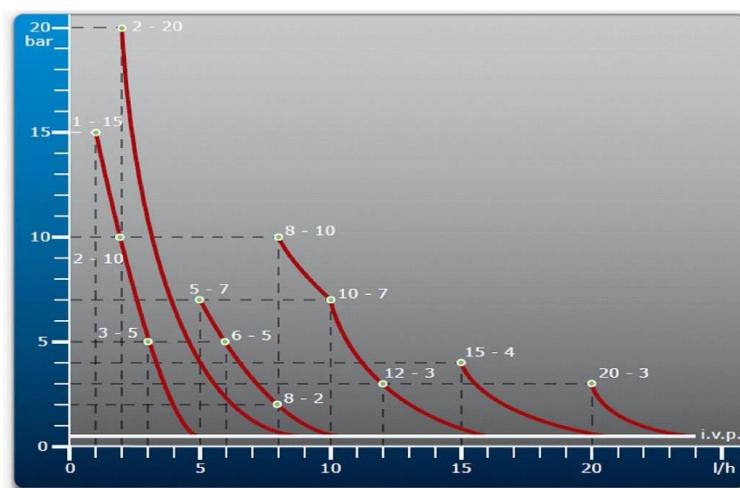

### **PVDF-FPM Standard Kit**

ALL DLX are supplied with a standard **PVDF-FPM installation kit**, made up of 2m discharge PE tube (4x6mm), 2m bleeding PVC crystal tube (4x6mm), PVDF foot-filter, PVDF injection valve. Other configurations are available upon request.
